

# **GUITAR PRACTICE SCHEDULE**

**CHEAT SHEET**

## □ **STEP #1**

Get very clear on what your LONG-TERM guitar playing / musical goals are.

## □ **STEP #2**

Make a list of your most *relevant* guitar playing weaknesses to work on during your guitar practice.

## □ **STEP #3**

Budget a realistic amount of time for practicing guitar each day.

## □ **STEP #4**

Be 100% sure about the musical elements you need to focus on to reach your long-term goals.

## □ **STEP #5**

Always include creativity development into your practice schedules.

## □ **STEP #6**

Plan time each day to work on applying your skills, even if you have not mastered them yet!

## □ **STEP #7**

Don't create the same practice schedule for each day of the week. Your schedules should vary, depending on the skills you are practicing each day.

## □ **STEP #8**

Create 3-5 different 8-day practice routines to follow. Use each one twice (16 days) before working with the next one.
